**21 October 2021**

**Proposed repowering of Te Rere Hau wind farm**

NZ Windfarms is excited to let you know about our ambition to investigate the repower potential of our Te Rere Hau wind farm.

We're preparing to apply for resource consent to replace our existing two-bladed fleet with larger three-bladed turbines like those on the neighbouring windfarms to the north and south of Te Rere Hau.

Repowering offers a range of economic, employment, social and environmental benefits, both locally and nationally. It will bring jobs to our community, offer significant noise reduction, and contribute to Aotearoa New Zealand's efforts to mitigate climate change and transition to a low-emissions economy. Engaging with our neighbours and community is hugely important to us and the work we do, so we'd like to keep you well informed as we move through this process.

To find out more, visit our website [www.nzwindfarms.co.nz](http://www.nzwindfarms.co.nz). Or, if you have specific questions please email us on [repower@nzwindfarms.co.nz](mailto:repower@nzwindfarms.co.nz)

Yours sincerely

A handwritten signature in blue ink, appearing to be 'Warren Koia', with a long horizontal stroke extending to the right.
